RE: Nutrient Offset Plan Report

Dear Mr. Hansen:

This letter serves as the fifteenth installment of the Pinnacle Foods Corporation's Nutrient Offset Plan Report. As required by Special Condition #7 of Pinnacle's NPDES Permit DE 0000736, "The permittee shall submit progress reports every six months outlining actions taken toward implementing this plan".

During the month of March, lime was applied and the annual fertilizer application was completed. As agreed, 30-lbs/acre nitrogen (ammonium sulfate), 30 -lbs/acre phosphorus and 120-lbs/acre potash (muriate of potash) were applied.

The spray irrigation unit was started up on May5th for the season. The field was cut and baled over Memorial Day weekend.

Should you have any questions please call me at 302-934-3833.

Sincerely,

A handwritten signature in black ink that reads "Robert E. Lynch".
